RE: President's June 2022 Report

I. Administrative

Happy Juneteenth! Let us pause to remember that freedom has been hard won in this country for many and freedom requires continual work to ensure that those who are traditionally most marginalized are given access to the full opportunities to allow all to succeed and thrive.

Today, we are celebrating our 2022 high school graduates with a drive-by graduation party immediately following this meeting. We are happy to report that a number of the students will be attending college or trade school. We are excited for what is to come with our young adults.

Amid concerns about the impact of the national baby formula shortage, we were pleased to host Congresswoman Rosa DeLauro, the Diaper Bank and several of our families and other partners for a Roundtable discussion where our families were able to share their stories of the impact that this has had on them. The stories shared were powerful and some were captured in this story ran by Fox 61 https://www.fox61.com/article/news/community/ct-cultured/mothers-speak-out-about-formula-crisis-at-roundtable/520-8872bf49-d790-448a-95e9-5e19bef95448.

The eagerly awaited ribbon cutting for Mill River Crossing was held on Tuesday May 31st at 10 am. In addition to the many partners whose support made this redevelopment possible, we were pleased to host individuals and the families of some community leaders who were particularly instrumental and whose names are memorialized in the new streets and public spaces created.

Today we bring forth the MTW 2023 Annual Plan for authorization. This year's plan builds upon the work enabled by Moving to Work status over the past 22 years. New initiatives include efforts to expand affordable housing in this community through new acquisitions, support for youth experiencing housing instability and an initiative to address the challenges are HCV participants face finding housing in this tight rental market.

Additionally, in furtherance of our work to create opportunity for our re-entry population, we are excited to partner with the CT State Branch of the NAACP around their Million Jobs Campaign. By signing on as community and workplace partner, we are creating new employment opportunities for our residents who have a criminal justice involvement in their background and we strengthen our ability to provide employment opportunities. We seek Board authorization of an Memorandum of Agreement that will guide this partnership.

Our team has been deepening its ability to support the agency's work around equity and inclusion through our partnership with CEIO. We recently held an in-person session where we refocused our team's efforts and developed plans for next steps. This was followed by a virtual session

Annual Fair Housing Training began this month with front line staff from Operations and 360 MGT prioritized for attendance in this session. An additional session will be held later this year for all other team members.

In concerning news, there was a significant fire on June 11th at Cornell Scott Ridge that forced the relocation of a family of 4. Additionally, we were made aware of a gunshot victim who sustained injuries at Westville Manor. The team is working to support both communities around these difficult events.

Thanks to our construction partner, LaRosa Building Group who submitted an application featuring Rockview Phase II, that project was selected as the 1st Place Winner of the award for Large Multi-Family/Mixed Use developments. An award dinner was held on June 14th at The Aqua Turf. Congratulations to the team!

Planning and Modernization

HAI Loss Prevention Grants:

P&M applied for funding 5/31/2022, from HAI, our insurance company, for two reimbursement grants, Fire Loss Prevention, \$78,680, for installation of Fire Suppression Cannisters at each stovetop in our LIPH portfolio, and Storm Damage Prevention, \$770,760, for Tree and Shrub management and removal. Grant awards will be announced this Fall, 2022. This is a cooperative venture with the Planning and Modernization, Finance, and Operations Departments. Work has begun on both projects, each reducing ECC liability risk and making our communities safer.

HUD Emergency Safety and Security Grant:

P&M is also applying to HUD for funding to address security upgrades at Robert T. Wolfe and George Crawford Manor. The grant would enable our high-rise Elderly and Disabled communities to have the extra layer of security necessary to exclude the influx of an uninvited element. The maximum award per HA annually is \$250,000. Applications are due June 15, 2022.

Lead-Based Paint Capital Fund Program—Lead Grant Funding Years 2017 and 2020

HUD Housing Related Hazards 2020

• P&M responded to the HUD NOFA for the Housing Related Hazards for Fiscal Year 2020, due May 25, 2021. On September 29, 2021, ECC was awarded \$3,999,993., the highest amount to a Housing Authority, in the nation, to address the following Hazards at Scattered Sites, Essex, Crawford Manor, Wolfe: Smoke and Carbon monoxide, Radon, Mold and Vermin (high-rise buildings). Work will include inspections, testing, installation of equipment, treatments and post-abatement testing, as required. The grant covers abatements in buildings encompassing 402 units. Scheduling/testing has begun with CO & smoke detectors (HUD stated priority), Radon testing and mitigation. Mold is being addressed in conjunction with Lead abatement projects as well as separately. Inspections for the Vermin (Bedbugs, rodents and cockroaches) portion of the grant has begun. A 3rd Quarterly benchmark report has been sent to the HUD Washington and our Regional offices.

ECC Lead-Based Paint Capital Fund Projects

HUD Lead Grant 2017--ECC applied for and awarded \$986,260 in Sept 5, 2018:

HUD national office understood the need was greater and put out an additional NOFA.

HUD Lead Grant 2020--ECC applied and was awarded an additional \$3,700,000, in May 2021.

What we have completed to date:

- Tested all (299) LIPH family property units at risk for Lead Based Paint (Built before 1978).
- Units testing positive for lead were organized by priority in order of importance to address-- Amalgamated Prioritization Chart. Highest priority, units with children under the age of 6 years and actionable levels of lead.
- We are addressing units <u>even if</u> there are no children, now, as these could be rented in the future to a family with young children.
- ECC met with State of Connecticut and HUD Washington Lead Teams to align goals and verify plan of action.
- Immediate action--Completed:
 - > Trained in-house staff to perform Interim Controls and to Follow Lead Safe Renovating practices
 - ➤ Interim Controls: Targeted highest priority units, temporarily removing lead dust while design and solicitation process was in progress
 - Highest priority Scattered site properties (10 houses-17 units)
 - McConaughy Terrace exterior source of lead dust--our largest Family development (201 units).
 - ➤ Removed Lead painted doors and friction components at McConaughy Terrace...no lead painted doors left at McConaughy Terrace (201 units).
- Design, Abatement and Construction Complete for Lead Abatement in the following properties:
 - o 10 houses (17 units lead safe) in our Scattered Sites West Portfolio. Lead, encapsulated, including replacement of peeling porch components and encapsulation of some siding. These came first as they were highest on our Amalgamated Prioritization Chart.

- o Essex Townhouses (35 units lead safe) ...all known lead components have been removed, not just encapsulated.
- o McConaughy (201 units moved to redevelopment effort...however, units all had Interim Controls performed; More permanent Abatement to accompany redevelopment.
- **Redesign:** Upon receipt of the 2nd Lead Based Paint grant, design of remaining units were upgraded to remove instead of just encapsulate certain components, keeping to the priorities established by the testing. This was made possible due to the additional HUD funding, and provides residents and ECC a more permanent and lasting solution to the Lead.
- Other Housing Related Hazards: ECC added elimination of other Housing Related Hazards upon receipt of a 3rd HUD grant \$3,999,993, where inspections identified significant mold and asbestos to remove.

Solicitations out for Bid May, 2022 for construction completion December, 2022:

- Group B: 3 Single-Family Houses in the Scattered Site West portfolio
- Group C: 8 Units in 4 houses in the Scattered Site East portfolio
- Solicitations out for Bid July, 2022 for Construction Completion January, 2023:
- Group A: 1 house, Scattered Sites East portfolio, Lead, mold and asbestos abatement with site safety and historic preservation requirements
- Solicitation out for Bid August, 2022 for construction start in Spring, 2023:
- **Group D: 21 houses** in the Scattered Sites East portfolio (houses currently without children under the age of 6 years, but needing lead abatement for future family rentals).

Testing has also been performed by the Operations Department in our Elderly and Disabled community high-rise buildings, and Lead was addressed in the areas where children under 6 years were living (common areas). Not part of the Lead Grant work.

In addition, ECC is not required to test for Lead in Water as part of the grant, however, ECC in its commitment to Residents, tested for lead in water and has abated any identified lead in water concerns, not using the Lead Grant monies.

Finally, as part of the Lead Grant Work, Planning and Modernization is using the abatement work as an opportunity to educate Residents regarding Lead Based Paint exposure, and Lead Safe practices to ensure a safer environment for children.

Testing results are shared with residents and explained, if needed. State of CT Lead education packet is shared and consultants are available for any technical clarification. Prior to Covid, Lead education packets were available in our lobby.

CFP Tasks

P&M Projects 2020-2022

- Scattered Sites: Heating and Gas Conversion: Contract Documents completed. Contract out to bid in September 2019, yielded only one bid, 40% over cost estimate. Re-procurement yielded responsive bid approved by the Board. Construction started April 15, 2021 and original Scope of Work is, 100% complete. Related change order work completed with environmental testing. Final payment and closed out; Reimbursement to the tenants for oil in existing tanks has been completed.
- Crawford Manor: ADA Entrance and Access Improvements and Fire Panel and Fire Pump Replacement: ECC rescinded previously awarded contract due to COVID considerations. Project was repackaged to perform PH1- ADA entry and fire pump renovations. PH 2, Fire Panel replacement work which requires entry into resident units in an Elderly development, was postponed until deemed safe to proceed, due to COVID. Seven (7) bids were received for Phase 1 vestibule and fire pump replacement. In March 2021, Board approved contract award. ADA entry vestibule is completed, and in use. The fire pump is on site. Fire Marshal required a change in electrical panels, a change order which added time. A portion of the work has been paid for by CARES funding. Work extended to March 31, 2022, to accommodate the Fire Department Fire Watch schedule. PH 2, was re-bid, again for the Fire Panel and addressable fire alarm system and Life Health and Safety Upgrades. Resolution was brought to the Board of Commissioners, in April. Contract out for signature.

- Robert T. Wolfe Renovations: A team of architects, engineers, environmental consultants, Operations and Planning and Modernization staff completed a survey of critical needs, health, life and safety considerations. Cost estimates were evaluated, and prioritized projects selected for design; bids were solicited, and 2 non-responsive bids submitted. Project resolicited. An elevator consultant was procured to design for elevator repairs, which were procured separately; ECC Indefinite Quantities Architect assisted in approaching repairs in a novel way saving ECC almost \$500,000 on the repairs. Due to COVID, Wolfe Phase 1 excludes work requiring entry into resident units or requiring relocation of residents in an elderly and disabled population; Construction on the community room, laundry room and corridors is completed. The Lobby and ADA entry are proceeding, scheduled for completion early June. A contract for Phase 2, for resident interior improvements was awarded, and preconstruction surveys completed. 10-unit bathrooms will be replaced and miscellaneous other life health and safety improvements throughout the majority of the residential units. Work began on the 8th and 7th floors in February, 2022, and has progressed through the 2nd floor. Additional life health and safety items have been identified and are being addressed concurrently.
- O McConaughy Terrace: Sanitary and Storm Sewer Improvements; Two (2) bids were received, and the contract was awarded to the lowest responsible bidder. Construction started August 2020, replacing sanitary and storm sewers in sequence; delayed start due to COVID planning for safety of the community. Construction proceeded on schedule, however due to discovery and removal of contaminated soils, a wintertime extension has been given. Additional soil disposal costs and general conditions cost were brought to the BOC. Substantial completion was reached 5/19/2021. This project has replaced all of the damaged and failing storm and sanitary sewer lines which were 70 years old, vastly improving health and safety for the 198 families and 3 communal areas at McConaughy Terrace. Project is closed out.
- O Physical Needs Assessments: P&M solicited the services of architects and engineers to provide Physical Needs Assessments (PNAs) and Capital Needs Assessments for RAD which are recommended for planning capital and development projects. Procurement scheduled virtual interviews with both respondents. A contractor was selected and approved by the BOC, June 2021. All site inspections for the original scope have been completed. Reports are finalized. These include individual Replacement Reserves for each of the Scattered Site properties, which is a new and more practical approach. Resident youth was hired as part of the consultants' Section 3 commitment to assist on the project. The contract has been extended for 1 year, with no additional funds to enable ECC the option to request additional reports for development projects.
- Essex Envelope and Site Fencing: Project design completed. Scope of project included roof, gutter, siding, window, AC sleeve, asbestos pipe insulation abatement and fencing replacement. Project scope revised to include only Site fencing and asbestos pipe insulation, as these portions could be addressed without unit entry during COVID. Bids solicited in March for fencing and basement pipe abatement. Six bids received. Scope of work was rebid. Project awarded and pipe insulation abatement is 100% completed. Reinsulation, 100% complete. Site fencing installation is proceeding for June 10, 2022, completion.
- Essex Envelope and Bathroom and Flooring Upgrades: This project will replace Roofs, Siding, Windows, Gutters and downspouts, provide code required AC sleeves, replace all bathrooms, and some flooring which is all beyond their Estimated Useful Life. This is a major improvement for residents of Essex Townhouses. Due to procurement issues the solicitation was cancelled, and the project put out to bid, again. Project awarded. Construction on site will begin July 11th, when all long lead-time materials are on site.
- ECC Design Standard Specifications: P&M has updated the standard design and construction specifications in a comprehensive manner, soliciting input from the Glendower Group, Operations and 360 Management, to create a practical document for in-house and Consultant use. Project is completed.
- 425B Eastern Street: P&M solicited A&E and environmental design services for a vacancy rehabilitation project. 425B Eastern Street sustained significant structural and cosmetic damage due to a fire. Solicitation received several bids; contract awarded. ECC's insurance company was contacted, and monies will be available for a portion of the repairs. Construction is complete, including change order work completed due to Fire Marshal request, and damage subsequent to design. City sign off received. Project in closeout.
- o **IQC Vacancy Contractor:** P&M and Operations working together to support vacant unit upgrade needs through management of 2 IQC painting and clean out contracts, one for high rise units and one for units

- with residential rates. Current contracts expired; Operation solicited quotes for new contracts which will be managed by Operations with Operations funding.
- 295 Wilmot Road—West Rock Community Center: Structural Engineering study and cost estimate solicited to support Operations. Two areas identified requiring structural shoring. Shoring quotes solicited, with only 1 quote significantly above the independent cost estimate, and therefore, not accepted. Quotes were solicited for the shoring between Buildings 1&2 and a contract has been awarded. As of 3/7/2022, the shoring in the warehouse area has been completed. The Building is in use.
- McQueeney Plaza Repair & Upgrades: A reworking of the plaza at 360 Orange Street has expanded the brick plaza emphasizing and enhancing the entry to the 360 Management client office. In-house design; construction completed and project closed out.
- Radon Mitigation at Scattered Sites Multi-family, Scattered Sites East and West: Radon was identified in 8 units of housing in the Scattered Site (SS) Multi-family developments. Mitigation design is completed and out to bid. As part of the Housing Related Hazards Grant, SS East and SS West properties were tested and only a few units came back positive for radon. These units will be addressed under the same contract, with a separate funding source.

EXHIBIT A

Memorandum of Understanding by and between NAACP One Million Jobs Campaign and Housing Authority of New Haven, dba Elm City Communities

The purpose of this Memorandum of Understanding (MOU) is to formalize the partnership of Elm City Communities/Housing Authority of New Haven (ECC/HANH) and the NAACP One Million Jobs Campaign to work collaboratively in implementation of the campaign. Both partners are committed to ensuring that each participant (a) receives the workforce services (e.g. pre-employment job readiness, career planning, job search, resume preparation, placement and job retention services) and other supports required to ensure success and (b) has access to career opportunities at participating employers, including ECC/HANH.

ECC/HANH works to make the City of New Haven a better choice for living. Our goal is to build better neighborhoods and create more options for desirable affordable housing. We also provide resident services, include workforce development support and job opportunities for residents.

CT NAACP's One Million Jobs Campaign (OMJC)'s is dedicated to strengthening equity and the economic status of formerly incarcerated community members and those who are otherwise at a disadvantage in the labor market as a result of their involvement with the criminal justice system.

The OMJC works with employers to secure commitments to offer jobs for qualified applicants that are enrolled in OMJC and referred by our Workforce Partners as job ready. Employer partners will also provide feedback to the OMJC and Workforce Partners on the participants referred and on the process of preparation and referral. OMJC is currently partnered with the healthcare, advanced manufacturers, retail industries to set aside over 10,000 jobs for formerly incarcerated individuals across the state of Connecticut over the next 3-5 years.

New Haven area employers, in partnership with CT NAACP's OMJC, are ready to employ formerly incarcerated individuals in entry-level positions with pathways to training and upward mobility. Additional employers in other sectors are being brought into the campaign as well.

OMJC is working with community organizations and government agencies in two categories, as:

- Workforce Partners, to whom OMJC refers enrolled participants for any workforce services required to be job ready and from whom OMJC receives referrals for enrollment, and
- Community Referral Partners, from whom OMJC receives referrals of candidates and who agree to support
 participants through the process of preparing for, securing, and succeeding in living wage jobs offering career
 pathways.

Once a candidate has applied to the OMJC (either directly or by referral), OMJC will refer the participant to a community Workforce Partner to assess individual needs, determine the training and skills required to align our clients with job eligibility requirements, and prepare candidates for successful application to participating employers. Through this network, support will be available in the areas of workforce training, adult education, higher education, and adult literacy. Once the Workforce Partner determines that the participant is job ready and an application is submitted, OMJC will alert the participating employer whose Human Resources staff have agreed to provide careful attention to OMJC candidates in their hiring process.

Upon a participant's employment, OMJC will work with its Workforce Partners and Community Referral Partners to support successful job applicants in retaining their employment, including with wrap-around services to assist with any systemic barriers that they may face.

In signing this document below, ECC agrees to support **OMJC** and declares the intent to carry out commitments listed in each category below.

Community Referral Partner Commitments:

Publicize the OMJC at our residences and in conversations with residents:

Make referrals of participants in the agency with a history of criminal justice involvement for enrollment in the OMJC;

Workforce Partner Commitments.

Receive referrals of OMJC participants for workforce services, within each partner's existing contractual obligations and budgetary limitations;

Make referrals of participants in the agency with a history of criminal justice involvement for enrollment in the OMJC; Provide and coordinate the workforce and supportive services each provides to individuals with a history of criminal justice involvement enrolled in OMJC;

Report back to OMJC through OMJC's easily accessible online platform the results of those referrals on an individual basis where results will be aggregated;

Attend professional staff training as needed and desired to implement our shared vision of an integrated reentry workforce services system;

Work with other Workforce Partners and with State and Federal officials to identify and remove administrative, statutory, and regulatory barriers that interfere with effective reentry practices; and

Support efforts to sustain and expand reentry workforce services in the New Haven area.

Employer Commitments

Provide OMJC staff with a list of available positions;

Train ECC/HANH human resources staff on making fair decisions regarding applicants with criminal records;

Work with the OMJC Clearinghouse to help and train qualified candidates for open positions;

Help all future employees with a "pathways to success" through internal promotions;

Ensure that internships and job training are available to people with criminal records; and

Provide feedback to OMJC on participants' application progress and outcomes.

We are confident that participation in the One Million Jobs Campaign will help our communities meet their workforce needs while continuing to provide exceptional services to the community, and job opportunities for formerly incarcerated individuals.

President's Report

To: ECC/HANH Board of Commissioners

From: Karen DuBois-Walton, Ph.D., President

Date: July 19th, 2022

RE: President's July 2022 Report

I. Administrative

Happy Summer!

Since we last met, we had the pleasure of welcoming our new Executive Communications and Board Liaison, Desire Sessions. Desire will be providing support to the Board of Commissioners as part of her role. Welcome to Desire!

This month we finalized planning for our Equitable Urban Reinvestment listening tour as part of our partnership in Growing Together CT. Our first city will be Hartford and we will hold a weeklong series of virtual sessions capturing the hopes and visions of city residents. Additionally, we invite everyone to take a moment and respond to our survey and to share it widely. The survey captures residents' thoughts on what equitable urban reinvestment means to them. The survey is available in English and Spanish via this link: https://docs.google.com/forms/d/e/1FAIpQLSc8a7fhZlrRKGXCAKb2Z1KfYzdwR4lm77f9T55 8VRHhXY1nOg/viewform

On Saturday July 9th, I was excited to be joined by Vice Chair Kilpatrick and Commissioner Witherspoon at the ribbon cutting for the ECC/HANH partnership with Christian Community Action located at 660 Winchester Ave. This Moving to Work initiative represents a non-traditional use of HCV funding to support the housing needs of 18 families transitioning from unhoused status to self sufficiency. Our housing support, coupled with the supportive services provided by CCA and generous private donations, has breathed new life into this site and it was wonderful to be joined by Senator Blumenthal, Congresswoman DeLauro, Senators Looney and Winfield, Rep. Dillon and Porter, Alder Avshalom-Smith, Mayor Elicker, faith leaders, former residents, community members and generous donor, Ms. Lindy Lee Gold. Read more about this event here: https://www.newhavenindependent.org/article/new_hope_housing

We are thrilled to be a finalist in the National Civic League AllAmerica City competition which focused this year on cities that demonstrate a strong partnership seeing housing as a platform to promote strong academic achievement for its youth. This has offered an opportunity to showcase our ECC Believes! initiative and the work done in partnership with our families and

youth especially over these past COVID-19 impacted years. We invite everyone to join in viewing the award celebration on Thursday July 21st when the winner will be announced.

Time Extension Granted per Resolution #02-25/10-R

- Requesting 1-month extension for Solar Youth's East View youth program for the contract to end July 31, 2022. No additional finding is being requested.
- Requesting 2-month extension for Solar youth's West youth programming for the contract to end August 30, 2022. No additional finding is being requested.

ECC Believes Program Highlights

- This month CED worked to coordinate summer camp opportunities for our youth residents. We registered youth for PAL, Youth @ Work, Parks and Rec camp, LEAP, Solar Youth and Boys and Girls Club.
- Our Youth @ Work participants were onboarded and prepared to begin work the first week in July.
- Interviews took place for STEP program. Our prospective students have expressed interested in our IT, Operations, Finance and the CED department. We are excited to welcome new faces in our STEP program very soon. Several STEP students provided positive feedback during their monthly case management sessions this month and stated they felt they were growing in their roles and feeling confident about their futures. A parent also reached out to express her appreciation and how much this program will benefit her son in his future. We also celebrated our graduates and are working hard to ensure we are offering continuing educational support. (pictures included)
- Our YLC youth have been introduced to our monthly Diaper Bank pickup as an option for their monthly community service and take pride in participating. Others have participated in Squash Haven and CFAL.
- Youth Wellness participation was a focus for us in CED. After hearing feedback from youth, we have prepared to go for a hike next month and participate in a lesson on gratitude. We anticipate this group growing stronger and larger.

V.Planning and Modernization

HAI Loss Prevention Grants:

P&M applied for funding 5/31/2022, from HAI, our insurance company, for two reimbursement grants, Fire Loss Prevention, \$78,680, for installation of Fire Suppression Cannisters at each

stovetop in our LIPH portfolio, and Storm Damage Prevention, \$770,760, for Tree and Shrub management and removal. Grant awards will be announced this Fall, 2022. This is a cooperative venture with the Planning and Modernization, Finance, and Operations Departments. Work has begun on both projects, each reducing ECC liability risk and making our communities safer.

HUD Emergency Safety and Security Grant:

P&M is also applying to HUD for funding to address security upgrades at Robert T. Wolfe and George Crawford Manor. The grant would enable our high-rise Elderly and Disabled communities to have the extra layer of security necessary to exclude the influx of an uninvited element. The maximum award per HA annually is \$250,000. Applicationwas submitted June 15, 2022.

Lead-Based Paint Capital Fund Program—Lead Grant Funding Years 2017 and 2020 HUD Housing Related Hazards 2020

• P&M responded to the HUD NOFA for the Housing Related Hazards for Fiscal Year 2020, due May 25, 2021. On September 29, 2021, ECC was awarded \$3,999,993., the highest amount to a Housing Authority, in the nation, to address the following Hazards at Scattered Sites, Essex, Crawford Manor, Wolfe: Smoke and Carbon monoxide, Radon, Mold and Vermin (high-rise buildings). Work will include inspections, testing, installation of equipment, treatments and post-abatement testing, as required. The grant covers abatements in buildings encompassing 402 units. Scheduling/testing has begun with CO & smoke detectors (HUD stated priority), Radon testing and mitigation. Mold is being addressed in conjunction with Lead abatement projects as well as separately. Inspections for the Vermin (Bedbugs, rodents and cockroaches) portion of the grant has begun. A 3rd Quarterly benchmark report has been sent to the HUD Washington and our Regional offices.

ECC Lead-Based Paint Capital Fund Projects

HUD Lead Grant 2017--ECC applied for and awarded \$986,260 in Sept 5, 2018:

HUD national office understood the need was greater and put out an additional NOFA.

HUD Lead Grant 2020--ECC applied and was awarded an additional \$3,700,000, in May 2021.

What we have completed to date:

- Tested all (299) LIPH family property units at risk for Lead Based Paint (Built before 1978).
- Units testing positive for lead were organized by priority in order of importance to address-- Amalgamated Prioritization Chart. Highest priority, units with children under the age of 6 years and actionable levels of lead.
- We are addressing units even if there are no children, now, as these could be rented in the future to a family with young children.

- ECC met with State of Connecticut and HUD Washington Lead Teams to align goals and verify plan of action.
- Immediate action--Completed:
 - > Trained in-house staff to perform Interim Controls and to Follow Lead Safe Renovating practices
 - ➤ Interim Controls: Targeted highest priority units, temporarily removing lead dust while design and solicitation process was in progress
 - Highest priority Scattered site properties (10 houses-17 units)
 - McConaughy Terrace exterior source of lead dust--our largest Family development (201 units).
 - ➤ Removed Lead painted doors and friction components at McConaughy Terrace...no lead painted doors left at McConaughy Terrace (201 units).
- **Design, Abatement and Construction Complete** for Lead Abatement in the following properties:
 - o 10 houses (17 units lead safe) in our Scattered Sites West Portfolio. Lead, encapsulated, including replacement of peeling porch components and encapsulation of some siding. These came first as they were highest on our Amalgamated Prioritization Chart.
 - o Essex Townhouses (**35 units lead safe**) ...all known lead components have been removed, not just encapsulated.
 - McConaughy (201 units moved to redevelopment effort...however, units all had Interim Controls performed; More permanent Abatement to accompany redevelopment.
- **Redesign:** Upon receipt of the 2nd Lead Based Paint grant, design of remaining units were upgraded to remove instead of just encapsulate certain components, keeping to the priorities established by the testing. This was made possible due to the additional HUD funding, and provides residents and ECC a more permanent and lasting solution to the Lead.
- Other Housing Related Hazards: ECC added elimination of other Housing Related Hazards upon receipt of a 3rd HUD grant \$3,999,993, where inspections identified significant mold and asbestos to remove.

Solicitations out for Bid May, 2022 for construction completion December, 2022:

- Group B: 3 Single-Family Houses in the Scattered Site West portfolio
- Group C: 8 Units in 4 houses in the Scattered Site East portfolio
- Solicitations out for Bid July, 2022 for Construction Completion January, 2023:
- Group A: 1 house, Scattered Sites East portfolio, Lead, mold and asbestos abatement with site safety and historic preservation requirements
- Solicitation out for Bid August, 2022 for construction start in Spring, 2023:
- **Group D: 21 houses** in the Scattered Sites East portfolio (houses currently without children under the age of 6 years, but needing lead abatement for future family rentals).

Testing has also been performed by the Operations Department in our Elderly and Disabled community high-rise buildings, and Lead was addressed in the areas where children under 6 years were living (common areas). Not part of the Lead Grant work.

In addition, ECC is not required to test for Lead in Water as part of the grant, however, ECC in its commitment to Residents, tested for lead in water and has abated any identified lead in water concerns, not using the Lead Grant monies.

Finally, as part of the Lead Grant Work, Planning and Modernization is using the abatement work as an opportunity to educate Residents regarding Lead Based Paint exposure and Lead Safe practices to ensure a safer environment for children.

Testing results are shared with residents and explained, if needed. State of CT Lead education packet is shared and consultants are available for any technical clarification. Prior to Covid, Lead education packets were available in our lobby. Ongoing Lead Management Plans are being developed for completed Construction projects, as required by the HUD regulations.

CFP Tasks

P&M Projects 2020-2022

- O Scattered Sites: Heating and Gas Conversion: Contract Documents completed. Contract out to bid in September 2019, yielded only one bid, 40% over cost estimate. Re-procurement yielded responsive bid approved by the Board. Construction started April 15, 2021 and original Scope of Work is, 100% complete. Related change order work completed with environmental testing. Final payment and closed out; Reimbursement to the tenants for oil in existing tanks has been completed.

PH 2, Fire Panel replacement work which requires entry into resident units in an Elderly development, was postponed until deemed safe to proceed, due to COVID. Seven (7) bids were received for Phase 1 vestibule and fire pump replacement. In March 2021, Board approved contract award. ADA entry vestibule is completed, and in use. The fire pump is on site. Fire Marshal required a change in electrical panels, a change order which added time. A portion of the work has been paid for by CARES funding. Work extended to March 31, 2022, to accommodate the Fire Department Fire Watch schedule. PH 2, was re-bid, for the Fire Panel and addressable fire alarm system

- and Life Health and Safety Upgrades. Resolution was brought to the Board of Commissioners, in April. Contract has begun, for January 31, 2023 completion.
- o Robert T. Wolfe Renovations: A team of architects, engineers, environmental consultants, Operations and Planning and Modernization staff completed a survey of critical needs, health, life and safety considerations. Cost estimates were evaluated, and prioritized projects selected for design; bids were solicited, and 2 non-responsive bids submitted. Project resolicited. An elevator consultant was procured to design for elevator repairs, which were procured separately; ECC Indefinite Quantities Architect assisted in approaching repairs in a novel way saving ECC almost \$500,000 on the repairs. Due to COVID, Wolfe Phase 1 excludes work requiring entry into resident units or requiring relocation of residents in an elderly and disabled population; Construction on the community room, laundry room and corridors is completed. The Lobby and ADA entry are proceeding, scheduled for completion in July.. A contract for Phase 2, for resident interior improvements was awarded, and preconstruction surveys completed. 10unit bathrooms will be replaced and miscellaneous other life health and safety improvements throughout the majority of the residential units. Work began on the 8th and 7th floors in February, 2022, and has progressed through the 2nd floor. Additional life health and safety items have been identified and are being addressed concurrently.
- McConaughy Terrace: Sanitary and Storm Sewer Improvements; Two (2) bids were received, and the contract was awarded to the lowest responsible bidder. Construction started August 2020, replacing sanitary and storm sewers in sequence; delayed start due to COVID planning for safety of the community. Construction proceeded on schedule, however due to discovery and removal of contaminated soils, a wintertime extension has been given. Additional soil disposal costs and general conditions cost were brought to the BOC. Substantial completion was reached 5/19/2021. This project has replaced all of the damaged and failing storm and sanitary sewer lines which were 70 years old, vastly improving health and safety for the 198 families and 3 communal areas at McConaughy Terrace. Project is closed out.
- o Physical Needs Assessments: P&M solicited the services of architects and engineers to provide Physical Needs Assessments (PNAs) and Capital Needs Assessments for RAD which are recommended for planning capital and development projects. Procurement scheduled virtual interviews with both respondents. A contractor was selected and approved by the BOC, June 2021. All site inspections for the original scope have been completed. Reports are finalized. These include individual Replacement Reserves for each of the Scattered Site properties, which is a new and more practical approach. Resident youth was hired as part of the consultants' Section 3 commitment to assist on the project. The contract has been extended for 1 year, with no additional funds to enable ECC the option to request additional reports for development projects.

- Essex Envelope and Site Fencing: Project design completed. Scope of project included roof, gutter, siding, window, AC sleeve, asbestos pipe insulation abatement and fencing replacement. Project scope revised to include only Site fencing and asbestos pipe insulation, as these portions could be addressed without unit entry during COVID. Bids solicited in March for fencing and basement pipe abatement. Six bids received. Scope of work was rebid. Project awarded and pipe insulation abatement is 100% completed. Re-insulation, 100% complete. Site fencing installation is complete with punch list work to be 100% July 22, 2022.
- Essex Envelope and Bathroom and Flooring Upgrades: This project will replace Roofs, Siding, Windows, Gutters and downspouts, provide code required AC sleeves, replace all bathrooms, and some flooring which is all beyond their Estimated Useful Life. This is a major improvement for residents of Essex Townhouses. Due to procurement issues the solicitation was cancelled, and the project put out to bid, again. Project awarded. Construction on site will begin, when windows and doors are on site, July. Work will proceed on the envelope, roof, siding windows and follow up with the interior work. Scheduled for construction completion, December 31, 2022.

- 295 Wilmot Road—West Rock Community Center: Structural Engineering study and cost estimate solicited to support Operations. Two areas identified requiring structural shoring. Shoring quotes solicited, with only 1 quote

- significantly above the independent cost estimate, and therefore, not accepted. Quotes were solicited for the shoring between Buildings 1&2 and a contract has been awarded. As of 3/7/2022, the shoring in the warehouse area has been completed. The Building is in use.
- Orange Street has expanded the brick plaza emphasizing and enhancing the entry to the 360 Management client office. In-house design; construction completed and project closed out.

The Project will be located upon a portion of land currently owned by the Authority, which land will be conveyed to the City

of New Haven. .

All of the following requirements for submitting an application under Section 18 of the Laws of 1937 must be met before an application can be submitted to the US Department of Housing and Urban Development's ("HUD") Special Applications Center ("SAC"):

AFFH includes ensuring that the proposed inventory removal development is not in conflict with fair housing goals and strategies in the Authority's PHA or MTW Plan, and is consistent with the Authority's obligation to AFFH, certification and supporting activities. The Authority conducted the submission requirements of the SAC application (including removal justification; resident consultation, etc.) in conformity with Title Americans with Disabilities Act of 1990, state or local accessibility requirements, and other applicable civil rights laws. If HUD approves the SAC application, the Authority will carry out and implement this removal action (including relocation, if applicable), in conformity with all applicable civil rights requirements. The requirements for AFFH can be found at 24 CFR §§ 5.150-5.152, 5.154, 5.156, 5.158, 5.160, 5.162, 5.164, 5.166, 5.168, and 5.169-5.180;

Form HUD-52860 Instructions

Refer to SAC website at www.hud.gov/sac for more information

This form request general information from PHAs about proposed removal actions under the following laws: demolition and disposition (Section 18 of the 1937 Act and 24 CFR part 970); voluntary conversion (Section 22 of the 1937 Act and 24 CFR part 972); required conversion (Section 33 of the 1937 Act and 24 CFR part 972); homeownership (Section 32 of the 1937 Act and 24 CFR part 906); retentions (PIH Notice 2016-20 and 2 CFR 200.311); and eminent domain (PIH Notice 2012-8, or replacement notice). This form is the first part of a SAC application that must be submitted via the fields in the Inventory Removal Submodule of IMS/PIC (or replacement system).

PHAs must complete the sections of this form where there is no field in the IMS/PIC SAC application for the requested information. PHAs must then upload this form and other supporting documentation requested by this form to the IMS/PIC SAC application. PHAs must label that supporting documentation by section number of this form and/or by name (e.g. Resident Consultation). PHAs must complete and submit applicable addendums as indicated below as part of a SAC application. PHAs must refer to the applicable regulations, PIH notices and other program guidance noted above for detailed requirements on the submissions required for the specific removal action proposed in the SAC application at SAC web site.

Proposed Removal Action	Additional HUD Form Required
Section 18 Disposition and/or Demolition	HUD-52860-A
Section 18 Demolition Rehab Needs and Cost-Test	HUD-52860-B
Section 32 Homeownership	HUD-52860-C
Section 33 Required Conversion	HUD-52860-D
Section 22 Voluntary Conversion	HUD-52860-E
Eminent Domain	HUD-52860-F
Part 200 Retention	HUD-52860-G

NOTE: The removal of public housing units from the PHA's inventory through these actions will impact (decrease) the PHA's Operating and Capital Fund subsidy from HUD. See 24 CFR 990.190 and PIH Notice 2017-22 (or successor notice) for impacts on Operating Fund. Capital Funds for units will terminate at the time the units are removed from ACC via IMS/PIC. However, PHAs may be eligible for Demolition Disposition Transition Funding (DDTF) pursuant to 24 CFR 905.400(j).

Section 1: General Information

Some fields will automatically populate from IMS/PIC. If not, complete all fields.

Section 2: N/A

Section 3: PHA Plan, PHA Board Resolution, Environmental Review and Local Government Consultation

Refer to the regulation, PIH Notice or other HUD guidance document for guidance on these requirements for the specific removal action proposed, but generally the following apply:

PHA Plan: PHAs must include the removal action in their approved PHA plan for all SAC applications.

<u>Board Resolution</u>: PHAs must obtain a board resolution approving the removal action for all SAC applications. For demolitions and dispositions proposed under 24 CFR part 970, the board resolution must be dated after the date of resident and local government consultation.

Environmental Clearance: HUD will not process or approve a SAC application without evidence that the proposed removal action has received Environmental Clearance. This evidence will generally be a copy of a HUD signed Authority to Use Grant Funds (HUD-7015.16 form or subsequent form) for the proposed removal action (including future use, if known) to evidence an environmental review acceptable to HUD was completed under 24 CFR part 58. In some instances, evidence of Environmental Clearance may be a letter from the Responsibly Entity stating the activity was exempt or categorically excluded under 24 CFR part 58. The only exception to obtaining Environmental Clearance under 24 CFR part 58 is if HUD, in its sole discretion, decides to complete the environmental review itself under 24 CFR part 50. In this case, the applicable local HUD Office of Public Housing must have actually completed the environmental review and determined the action has Environmental Clearance before HUD will process or approve a SAC application.

<u>Local Government Consultation</u>: PHAs must consult with their local government officials and obtain a letter of support for all SAC applications (except for eminent domain and homeownership). For demolitions and dispositions proposed under 24 CFR part 970, PHAs must include a narrative description of its consultation with local government officials.

Sections 4-9 must be completed and submitted separately for each Development covered by this Application

Section 4: Description of Existing Development(s)

Most information should automatically populate from IMS/PIC information, except for Section 4, Line item 10 (Total Acres of the Development) which the <u>PHA must complete</u>. If line 10 is not completed or less than proposed for disposition under Section 5, PHA will not be able to fill in Section 5, line 4. The development number should be the HUD development number. All development numbers are at least 8 characters long (and may be up to 11 characters for AMP developments).

Section 5: Description of Proposed Removal

Unlike section 4, this information will not automatically populate. PHAs must complete the fields of this form where there is no field in the IMS/PIC SAC application for the requested information (i.e. UFAS information).

Removal Action Type: PHAs must select removal action type as the first step to creating the electronic SAC application in IMS/PIC. Property description (Unit, Building, Acreage): PHAs identify the property by development number(s) and buildings by their IMS/PIC building PHAs provide the total acreage (refer to instructions for Section 4, line 10) and physical address of the property proposed for removal. If the removal action includes land (i.e., not just buildings), PHAs should attach a description of the land (e.g. survey, copy of the legal description), along with a copy of the DOT/DoRC that is recorded against the property, if available. If the proposed removal action (including demolition) is for only a portion of the property at a contiguous site, PHAs must attach a site map. Estimated Value of Property: Attach an independent appraiser's appraisal summary or other valuation method. Timetable: PHAs indicates the number of days after HUD approval of a SAC application that they estimate they will complete these

Section 6: Relocation

activities.

PHAs complete this section for all proposed removal action where relocation will be required. PHAs may be required to complete additional relocation information in the applicable addendums (e.g. right of first refusal for homeownership applications; evidence of compliance with all applicable federal, state, and local laws for eminent domain actions).

For question #3, the summary of the type of counseling and advisory services should include a description of how the services will promote fair housing, including but not limited to how they will assist residents in obtaining housing in opportunity areas.

For question #6, the relocation summary should provide sufficient detail about the comparable housing that the PHA will offer to the displaced residents (i.e. based on available resources and resident preferences) Indicate how the PHA will identify and offer comparable housing to (a) displaced residents who have a family member who is a person with a disability; and (b) displaced residents who are not eligible for Section 8 HCV assistance (e.g. because they are over-income).

Note that a PHA's eligibility to receive TPVs is based on statutory Appropriations laws, and other HUD guidance, including but not limited to PIH Notice 2017-10 and PIH Notice 2018-04 (or any successor or replacement notices).

If the PHA is a public housing only-PHA and will partnering with a PHA that administers an HCV program for the TPVs, the partnering PHA must have jurisdictional authority and administrative capacity to administer the TPVs. PHAs should contact their local HUD Office of Public Housing for more information.

Section 7: Resident Consultation

Refer to the regulation, PIH Notice or other HUD guidance document for guidance on resident consultation for the specific removal action proposed.

Section 8: N/A

Section 9: PHA Certification of Compliance

The Executive Director, Board Chairperson, or other authorized agent of the PHA, should complete, sign and date the Certification and submit it (as a scanned PDF file) as part of its submission of the SAC application.

De Minimis Demolition

PHAs do not need HUD approval to demolish units under Section 18 de minimis authority. PHAs do need to submit information to HUD described at 970.7(a)(1), (2), (12), (13), and (15), which includes PHA plan, description of the property, board resolution, and environmental requirements. Thus, for purposes of de minims demolitions, PHAs are submitting information and not a SAC application through this form.

TO: Board of Commissioners

DATE: July 19, 2022

FROM: Karen DuBois-Walton, Ph.D., President

RE: Resolution Authorizing Contract Award to A. Prete Construction

Company, Inc. for Scattered Site Home Exterior and Interior Renovations-Group B in the Amount Not to Exceed \$572,268.00 for

Completion in 180 Calendar Days from Notice to Proceed

ACTION: Recommend that the Board of Commissioners adopt Resolution

Number 07-XX/22-R

TIMING: Immediately

DISCUSSION: ECC/HANH received three HUD competitive capital fund grants

to address lead-based paint and housing-related hazards in public housing properties. Under prior contracts, lead hazards were addressed at Essex Townhouses and at 17 units in Scattered Sites West properties. Receipt of the second lead-based paint grant permitted ECC/HANH to enhance the abatement scope to remove and replace some of the lead-containing components instead of

pursuing an encapsulation approach.

Working with design and environmental consultants, Scattered Sites East and Scattered Sites West properties were grouped into four bid packages addressing lead, asbestos, and other housing-related hazards such as mold. Group B includes three single-family Scattered Sites West properties: 21 Long Hill Terrace, 35

Westbrook Lane and 148 Ray Road.

On May 25, 2022, ECC/HANH publicly issued Invitation for Bids #PM-22-IFB-628 for Scattered Site Home Exterior and Interior Renovations-Group B. Bids were due June 30, 2022. ECC/HANH received and reviewed three bids.

ECC/HANH is recommending contract award to A. Prete Construction Company, Inc. who submitted the most responsive and responsible bid in the amount of \$572,268.00 for completion in 180 calendar days from Notice to Proceed.

In accordance with resolution #10-129/18-R for the Revised Procurement Policy approved by the Board of Commissioners on October 16, 2018, all Contracts greater than \$150,000.00 inclusive of all optional years and all Change Orders and amendments in excess of 10% or \$50,000.00 (whichever is higher) and which result in a total contract greater than \$150,000.00 must be approved by the Board of Commissioners prior to execution. We request Board of Commissioners authorization to execute a contract with A. Prete Construction Company, Inc. in the amount not to exceed \$572,268.00 for Scattered Site Home Exterior and Interior Renovations-Group B for completion in 180 calendar days from Notice to Proceed.

NOTE TO USERS

The Integrated Management Information System (IMIS) was designed as an information resource for in-house use by OSHA staff and management, and by state agencies which carry out federally-approved OSHA programs. Access to this OSHA work product is being afforded via the Internet for the use of members of the public who wish to track OSHA interventions at particular work sites or to perform statistical analyses of OSHA enforcement activity. It is critical that users of the data understand several aspects of the system in order to accurately use the information.

The source of the information in the IMIS is the local federal or state office in the geographical area where the activity occurred. Information is entered as events occur in the course of agency activities. Until cases are closed, IMIS entries concerning specific OSHA inspections are subject to continuing correction and updating, particularly with regard to citation items, which are subject to modification by amended citations, settlement agreements, or as a result of contest proceedings. THE USER SHOULD ALSO BE AWARE THAT DIFFERENT COMPANIES MAY HAVE SIMILAR NAMES AND CLOSE ATTENTION TO THE ADDRESS MAY BE NECESSARY TO AVOID MISINTERPRETATION.

The Integrated Management Information System (IMIS) is designed and administered as a management tool for OSHA to help it direct its resources. When IMIS is put to new or different uses, the data should be verified by reference to the case file and confirmed by the appropriate federal or state office. Employers or employees who believe a particular IMIS entry to be inaccurate, incomplete or out-of-date are encouraged to contact the OSHA field office or state plan agency which originated the entry.

As you are aware A. Prete Construction Company, Inc. is currently the contractor on four (4) other Elm City Communities projects, Winslow Celentano, Charles McQueeney Towers, Charles McQueeney Commercial F1 1-3, and Crawford Manor. As requested, our firm contracted several of the references provided by A. Prete Construction Company, Inc. with their bid. In general, the references contracted we all positive. We have attached for your review and information our firm's Memorandum dated July 11, 2022 (along with supporting documentation) outlining the results of our background check of A. Prete Construction Company, Inc.

We would like to point out that their Base Bid Amount of \$572,268.00 is 23% more that our firms estimated cost of \$465,253.72 as reflected in the "Opinion of Probable Construction Cost" dated May 13, 2022. We attribute this difference in the supply chain issues being experiences in the construction industry and the shortage of manpower in the workforce.

Based on the above Lothrop Associates LLP takes not exception to awarding this project to A. Prete Construction Company, Inc. in the base bid amount of \$572,268.00

I would ask that you share this information and our firm's recommendation with the Board of Commissioners when they meet on Thursday July 14, 2022.

Re: Scattered Sites Home Group B Exterior and Interior Renovations at Various Sites

Dear Arthur Seckler:

Per you letter received on July $11^{
m th}$ see our responses below to requested questions.

- to carry a full building permit on the total value but only on the new items being added to the project. When removing and replacement there is only a minimal permit fee. We found it appropriate to carry a building permit number based on \$75,000.00. If the Housing Authority feels it is needs to be changed, we will do so for the added cost. Per APC work with the City of New Haven for many years – on renovation projects it is not necessary
- in is
- APC and our tier subcontractors will be furnishing and installing all specified and/or equal products. APC and its tier subcontractors plan on completing this project within the contract specified period although due to long lead items there may be some impact on the schedule. Once all submittals are approved, we will have a better idea as to schedule.
- APC's environmental abatement contractor licensed for both Lead and Abatement.
- Asbestos contractor will be performing both abatement and lead.

RE: Scattered Site Homes – Exterior and Interior Renovations (Group B)

Project No. 2257-03

in performing reference checks on A. Prete Construction Company Inc., the statements below summarize our findings.

Referral number 1 stated. Has not returned my phone call

Referral number 2 stated that there were no issues with the contractor. Contractor handled all paperwork properly; on time and on budget. Their staff was professional and the work was completed on time. There was an issue with a manufacture defect of a light that was installed and A. Prete Construction handled the issue seamlessly.

Referral number 3 stated that they would recommend working with this contractor. A. Prete Construction came in under budget. Provided a state-of-the-art program for the new building, and provided exceptional construction.

In conclusion, of the 2 references which we heard from, it would appear that all comments were favorable for the contractor to substantially complete the job.

Refer to the attached two (2) Contractor Reference Checks.

MEMORANDUM

TO: Board of Commissioners

DATE: July 19, 2022

FROM: Karen DuBois-Walton, Ph.D., President

RE: Resolution Authorizing Contract Award to JLY Enterprises, LLC

dba JLY Construction Managers for Scattered Site Home Exterior and Interior Renovations-Group C in the Amount Not to Exceed \$1,037,400.00 for Completion in 180 Calendar Days from Notice to

Proceed

ACTION: Recommend that the Board of Commissioners adopt Resolution

Number 07-XX/22-R

TIMING: Immediately

DISCUSSION: ECC/HANH received three HUD competitive capital fund grants

to address lead-based paint and housing-related hazards in public housing properties. Under prior construction contracts, lead hazards were addressed at Essex Townhouses and at 17 units in Scattered Sites West properties. Receipt of the second lead-based paint grant permitted ECC/HANH to enhance the abatement scope to remove and replace some of the lead-containing components

instead of pursuing an encapsulation approach.

Working with design and environmental consultants, Scattered Sites East and Scattered Sites West properties were grouped into four bid packages addressing lead, asbestos, and other housing-related hazards such as mold. Group C includes four Scattered Sites East properties (8 units): 859 Woodward Avenue, 90-92 Terrace Street, 8-10 Terrace Street and 1042 Townsend Avenue.

On June 6, 2022, ECC/HANH publicly issued Invitation for Bids #PM-22-IFB-633 for Scattered Site Home Exterior and Interior Renovations-Group C. Bids were due June 30, 2022. ECC/HANH received and reviewed three bids.

ECC/HANH is recommending contract award to JLY Enterprises, LLC dba JLY Construction Managers who submitted the most responsive and responsible bid in the amount of \$1,037,400.00 for completion in 180 calendar days from Notice to Proceed.

In accordance with resolution #10-129/18-R for the Revised Procurement Policy approved by the Board of Commissioners on October 16, 2018, all Contracts greater than \$150,000.00 inclusive of all optional years and all Change Orders and amendments in excess of 10% or \$50,000.00 (whichever is higher) and which result in a total contract greater than \$150,000.00 must be approved by the Board of Commissioners prior to execution. We request Board of Commissioners authorization to execute a contract with JLY Enterprises, LLC dba JLY Construction Managers in the amount not to exceed \$1,037,400.00 for Scattered Site Home Exterior and Interior Renovations-Group C for completion in 180 calendar days from Notice to Proceed.

FISCAL IMPACT: \$1,037,400.00

NOTE TO USERS

The Integrated Management Information System (IMIS) was designed as an information resource for in-house use by OSHA staff and management, and by state agencies which carry out federally-approved OSHA programs. Access to this OSHA work product is being afforded via the Internet for the use of members of the public who wish to track OSHA interventions at particular work sites or to perform statistical analyses of OSHA enforcement activity. It is critical that users of the data understand several aspects of the system in order to accurately use the information.

The source of the information in the IMIS is the local federal or state office in the geographical area where the activity occurred. Information is entered as events occur in the course of agency activities. Until cases are closed, IMIS entries concerning specific OSHA inspections are subject to continuing correction and updating, particularly with regard to citation items, which are subject to modification by amended citations, settlement agreements, or as a result of contest proceedings. THE USER SHOULD ALSO BE AWARE THAT DIFFERENT COMPANIES MAY HAVE SIMILAR NAMES AND CLOSE ATTENTION TO THE ADDRESS MAY BE NECESSARY TO AVOID MISINTERPRETATION.

The Integrated Management Information System (IMIS) is designed and administered as a management tool for OSHA to help it direct its resources. When IMIS is put to new or different uses, the data should be verified by reference to the case file and confirmed by the appropriate federal or state office. Employers or employees who believe a particular IMIS entry to be inaccurate, incomplete or out-of-date are encouraged to contact the OSHA field office or state plan agency which originated the entry.

Bid Package- Group C New Haven, CT

Mr. Seckler,

I am in receipt of your letter, dated July 11, 2022. I appreciate the consideration for award of the referenced project to our firm. As requested, I can offer the following responses

- intended Base Bid was in fact \$1,037,400.00 It appears that the discrepancy that you refer to in your letter is derived by recalculating the Bid Sheet by applying the percentages of OH&P and the Permit Fees to the Subtotal of Demo and Construction, instead of applying those same percentages to the Subtotal inclusive of General Conditions, as we did. It was not clear which of the two I can confirm confidence in our Base Bid of \$1,037,400.00 I can also clarify that the amount of our methods was intended. 7
- I can confirm that we will be furnishing and installing all specified material and products. 5
- I can confirm that we have the required manpower and resources to complete the project within the specified 180 days. 3
- We intend to subcontract with Murdock Asbestos and Deleading, Inc. for all abatement work, including the lead removal. Murdock is licensed with the CT Dept of Health as both an asbestos and lead abatement contractor. Murdock is also a certified Section 3 contractor. We have completed several successful projects together. 4

Please feel free to contact me with any questions or comments.

Sincerely,

Joel Yencho Owner cc: H. Sokol-Holmes, ECC R. Gilroy, ECC

RE: Scattered Site Homes Exterior and Interior Renovations (Group C)

Project No. 2257-03

In performing reference checks on JLY Construction Managers, the statements below summarize our findings.

Referral number 1 stated that the contractor was very accommodating and easy to work with. They worked together in the past and enjoyed working with them. Pleasant staff.

Referral number 2 stated they worked with the owner in the past, before JLY was a business. Personally, the referral that Joel (JLY) was a very smart and knowledgeable individual, and would like to work with them in the future.

Referral number 3 stated that they felt comfortable working with JLY. All their questions were answered in a timely manner. Client didn't have any issues with the contractor. They did not finish project in time due to supply chain issues with a stove. Client stated that they were able to work around that issue and it was at no fault to the contractor

In conclusion, of the 3 references which we heard from, it would appear that all comments were favorable for the contractor to substantially complete the job.

Refer to the attached three (3) Contractor Reference Checks.

Use of Mill River Crossing Property Space

- Suiting
 - Clients are referred by partner agencies upon landing a job interview or is entering employment. A trained volunteer shopper works one-on-one with the client to obtain what is needed for an interview – from clothing to confidence – and the client can return once the client finds employment.  - With a mission geared towards empowerment, job retention, and career advancement, DFS recognizes that earning a living is only half the journey

to financial independence. The Professional Women's Group (PWG) continuously serves clients who have entered the workplace, some for the first time. The PWG consists of monthly after work meetings with 45-minute presentations from a volunteer guest speaker, a light dinner, question and answer session, and a networking period. Seminar speakers address the five pillars of written and unwritten rules of the workplace, leadership & civic engagement, health & wellness, financial literacy, and achieving work/life balance. Use of a meeting area to hold PWG meetings at a place that is easily accessible to clients.

Clothing Donation

Dress for Success Mid-Fairfield County does not schedule the first suiting appointment directly with clients. You are the primary link between Dress for Success Mid-Fairfield County and the women we suit.

So how exactly does this process work? The following steps illustrate an outline of the typical suiting process for an Interview Suiting.

STEPS IN SUITING

- 1. Make sure the prospective client has a concrete interview time and date set. Dress for Success Mid-Fairfield County suits women who are job ready, and it is your responsibility as a Referral Agency to screen the women you refer to us.
- 2. **Please call us first** to finalize the client's appointment. Call the referral phone number at 203-333-6505. Suiting appointments are available Tuesday through Thursday from 10am to 2pm. Once we confirm, you let the client know the time and date of her appointment.
- After the appointment is made, complete the online fillable Client Referral Form (see sample) and email back to: midfairfieldcounty@dressforsuccess.org
- 4. If possible, <u>provide three days advance notice of the appointment</u>. For emergency Interview suitings, we can try to set it up with 24-hour notice. Interview and Career Fair suitings may take up to 60 minutes. Employment, Internship and Training suitings may take up to 90 minutes.
- 5. It is **very important that you or the client call the Referral number to cancel** the appointment if needed! PLEASE reiterate this to her. Any time a client does not show it takes a space away from someone else. Additionally, it does not show respect for our volunteer's time when they come in to help and then do not have a client to suit.
- 6. Make sure the client knows to arrive alone and on time. If she is over 15 minutes late, we may not be able to suit her due to scheduling constraints.
- 7. Please tell the client to bring a photo ID or identification card to her appointment and proof of Covid 19 vaccination.
- 8. Please tell clients the only thing we can guarantee is interview appropriate clothing. If we have shoes or accessories appropriate to her outfit, we will gladly provide them.
- 9. If the client has feedback after her suiting, whether positive or negative, please let us know! If the client is a "no show", we will let you know so you are aware.

FOR A SECOND/EMPLOYMENT SUITING

- 1. If the client has completed an Interview suiting at Dress for Success Mid-Fairfield County prior to landing the job, she may call our office to schedule an Employment suiting. If the client did not come for an initial Interview suiting, the Referral Agency should follow the regular process for referring a client.
- 2. All Employment suitings require written proof that she has received the position. A hire letter, pay stub, or email communication with the employer is adequate proof.

TRAINING AND INTERNSHIP SUITINGS

1. We offer suiting's to women who are entering internships or job training programs that require professional attire. These suitings require proof that she has is enrolled in a training program or has been offered an internship position. Referral agencies should follow the same process for scheduling an appointment as when scheduling an initial Interview suiting.

SO...THE CLIENTS

The clients are the most important part of Dress for Success! They are the reason we exist. What do we give to our clients? What do we expect from them in return?

- Clients must be **on time**. We understand that busses may be slow, or people
 may get lost, but clients should give themselves extra time to allow for
 unforeseen delays. Point out to the client that if she gets lost, she can call

- A volunteer Personal Shopper/Image Coach will be waiting for the client when she arrives. They are ready, willing, and able to assist women in choosing appropriate attire for her upcoming interview or new job. The appointment may take up to 90 minutes, so please ask her to plan accordingly.
- Clients may **not** bring any guests into the boutique no siblings, friends, significant others, pets and, especially, no children. Even if a babysitter cancels, we cannot allow children into the boutique for liability reasons. If the

Memorandum of Understanding Regarding Establishment of the New Haven Coalition to End Structural Racism in Public Health

The New Haven Health Department ("NHHD") is applying for federal funding from the U.S. Department of Health and Human Services Office of Minority Health Community-Driven Approaches to Address Factors Contributing to Structural Racism in Public Health Grant Program. The purpose of the initiative is to support development and implementation of new policies and innovative practices to address policies that may create or perpetuate health disparities and may contribute to structural racism.

The New Haven Health Department will lead this project to address policies that may contribute to structural racism and health disparities among New Haven's children. The initial focus will be on addressing the high rate of asthma among New Haven's children, with the potential to expand to other preventive health services, environmental health, and mental health. These issues include, but are not limited to: lead poisoning, mental health issues, and diet-related outcomes.

Policy and practice changes to be pursued involve the schools, the public health system, and the health care system as well as a focus on the social determinants of health such as economic stability, education access, housing, and racial/cultural discrimination. The project involves a systematic review of existing policies and their effects on health outcomes data; a process known legal epidemiology, the study of law as a factor in the cause, distribution, and prevention of disease and injury. It applies rigorous, scientific methods to translate complex legal language into data that can be used to evaluate how laws affect population health. This method measures outcomes that policymakers can use to make decisions on issues that affect population health. This information will guide the creation of an execution plan for new policies and policy changes.

This Memorandum of Understanding reflects the commitment of the agencies and individuals signing below to serve on and/or otherwise support the work of the community-focused multi-sector coalition, the New Haven Coalition to End Structural Racism in Public Health (the "Coalition"), that is being established to guide and carry out this work. This multi-sector team is a critical resource for addressing the diverse range of policy areas and practices that may create or perpetuate health disparities and may contribute to structural racism. The multi-sector team includes members who represent communities experiencing health disparities as a result of structural racism. The team also includes decision-makers at state and local levels and representatives from different sectors (i.e., community development, planning, public health, transportation, public works, education, housing, etc.). The term of the Coalition will be at least one year and up to three years contingent of continued federal funding.

The Coalition will support efforts aimed at addressing required components of the plan:

- a. Assess Policies and Practices. NHHD and the Coalition will incorporate into the project the framework and tools underdevelopment by the funded OMH coordinating center to assess policies and practices that create or perpetuate health disparities and may contribute to structural racism. Policies to be reviewed may be related to environmental health, mental health, preventive health services, or other health policies. Policy areas that often influence health and contribute to health disparities should be included such as housing, education, or other areas such as language access. Based on the findings of their policy and practice assessment, the Coalition will develop and implement a plan that seeks to improve or modify policies and practices that perpetuate health disparities and may contribute to structural racism, or develop new policies and practices.
- **b.** Develop, Modify, and Implement Policy and Practice. NHHD, through the Coalition, will develop action plans for modifying existing policies and practices or for developing new policies and practices and to implement those plans to the extent possible to reduce or remove structural racism and improve health outcomes. The Coalition will develop innovative practices to reduce health disparities and improve access to public health services based on the policy and practice assessment. The Coalition will also take steps to build support for the implementation of the new or the modified policies and practices.
- **c.** Advise, Assist, and Train Community Stakeholders. NHHD with support of the Coalition will advise, assist, and train community stakeholders (e.g., community leaders, data owners, program administrators, local policymakers, residents) to empower public and non-profit entities, including community-based organizations, to make equitable data-driven policy and practice decisions and effectively address structural barriers contributing to health disparities among racial and ethnic minority populations.
- **d. Develop and Implement an Evaluation Plan.** NHHD with support of the Coalition will develop and implement a process and outcomes evaluation plan which will clearly assess the extent to which the project results in:
 - Increased capacity of a community-focused multi-sector Coalition to assess policy and practice impact;
 - Increased number of proposed practices to reduce health disparities by improving access to public health services in ways that mitigate factors contributing to structural racism in public health services;

- Increased capacity of community stakeholders to access, translate, synthesize, and utilize data; and
- Improved health outcomes for racial and ethnic minority populations.
- **e. Dissemination of Findings.** NHHD with support of the Coalition will communicate and disseminate project knowledge and findings to include dissemination to federal, state, territorial, and tribal public agencies; policy makers; community organizations; community members; and stakeholders.
- **f.** Sustainability Plan. NHHD with support of the Coalition will develop a plan for sustaining the project after the award ends..
- **g. Disparity Impact Statement.** NHHD with support of the Coalition will develop a disparity impact statement (DIS) during the project period using local data to identify populations at highest risk for health disparities relative to this initiative. The DIS will provide the measurement framework for ongoing monitoring and determining the impact of the project activities on outcomes and overarching goal of advancing health equity.

In signing this Memorandum, the members of the Coalition agree to:

- Support NHHD efforts to carry out the activities listed above;
- Attend monthly meetings of the Coalition and participate in work groups aligned with each members' work as feasible;
- Assist in building consensus around structural racism policy issues and support for change;
- Assist NHHD in leveraging resources to accomplish the goals of the Coalition;
- Assist in the identification of systems-level policies across social determinants of health-related factors that may contribute to structural racism
